 **THINK GREEN** : this form can be virtually completed, please do not print (unless it is really necessary !)

REQUIREMENTS CONCERNING THE EXHIBITED E-LIQUIDES

VAPEXPO encourages all exhibitors to adopt responsible practices to ensure satisfying quality standards as well as a complete compliance with the applicable regulatory framework of the French e-liquid market. Hence, a certain transparency will be required with regard to the e-liquids you are willing to exhibit and showcase to the public during the event you are going to participate in.

As such, you are committing to bring us the proof of it by submitting a declaration on the honor stating that you are able to provide us with the following documents, upon request from VAPEXPO:

for the e-liquids containing nicotine : the TPD (Tobacco Products Directive) registration ID number delivered by the ANSES (French Agency for Food, Environmental and Occupational Health & Safety)

for every e-liquids exhibited : the Material Safety Data Sheet or «MSDS» («FDS» in French) of the concerned e-liquid

the certifications proving that you declared your products to the INRS (French Health and Safety Research Institute) and the CAPTV (French Anti-poison and Toxin Monitoring Centres) : the registration of each e-liquid can be achieved through the following platform (English version available) : www.declaration-synapse.fr

Be careful: you may be asked to submit all or part of the documents listed above at any time before or during the relevant show. Any failure to display or provide any of these documents and after 3 e-mail follow-ups, VAPEXPO reserves the right to cancel your participation, with full refund of your booth (apart from the obligatory registration fee of € 400) the days following the event itself.

We remind you that:

The e-liquids are subject to the provisions of the regulation REACH (CE n°1907/2006) relating to the Registration, Evaluation, Authorisation and Restriction of Chemicals.

The packaging of your e-liquids must comply with the legislation relating to the French transposition of the TPD as well as the current European norms in the framework of the regulation CLP (CE n°1272/2008 « Classification, Labelling and Packaging »)*.

I, the undersigned

acting in my capacity of representative of the **company**

residing [full address]

hereby certify that the said company:

satisfies all the legal obligations that apply for the French market of vaping products (i.e e-liquids with or without nicotine)

is able to provide evidence of the compliance of each of the product exhibited and showcased to the public during the relevant exhibition (VAPEXPO PARIS 2024)

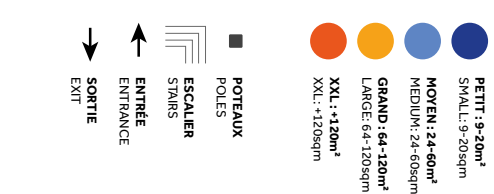

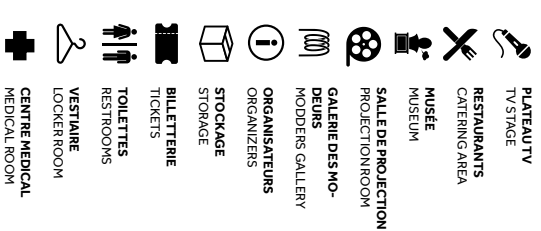

is able to provide all the documents listed above upon request of the VAPEXPO organization

And notes that the infringing of those commitments might lead to the **cancellation of the participation** of the said company in the exhibition of VAPEXPO PARIS 2024. For all due intents and purposes.

city: **date :**

signature and stamp mandatory

* Any e-liquid that is subject to labelling and packaging under CLP must not be confused with a food, medicinal or cosmetic product, nor attract the curiosity of children or other vulnerable consumer groups. For example, a prominent picture of a fruit on the label or packaging can create confusion for the consumer and increase attractiveness to children. Other elements, such as the bright colour, the shape and design of the packaging or the consistency of the chemical may also create a resemblance with food products or with toys.
